

NATHANIEL LEKATOMPESSY

Master in Management
IE Business School

TOPIK YANG MENARIK PERHATIAN

At the age of 15, I started pursuing my double bachelor degree focusing in entrepreneurship in 2 different countries & started do my master in management in IE Business School in Madrid, Spain at the age of 19. I've a fond interest in the social development & economic alleviations of Indonesia, I strive to educate the young generation of Indonesia to build a better environment in order to secure their future. Currentlh, i'm founder of an organization that works with the UN, Youth Action Hub where we focus in educating the SDG's toward the youth of Indonesia.

Kisah menarik di PPI

PPI Spain is a very small organization compared to other PPI's in Europe. For a country as big as Spain, we only have less than 50 members & less tahn 30 active members. At the age of 19, PPI Spain has elected me to become their new Preseident yet, We've replaced our Vice-President in the first 3 months of my Presidency due to the conflict of work-ethic & goals. In addition, with the help of only 10 peopl, we've hosted the PPIDK Amerop Sypmosium'qo with the help of the previous President in Barcelona. later on this year, we helped PPIDK Amerop's Mengari Program by sending pur Vice-President to NTT & has resulted to a big success where PPI Spain will be a big contributor in the coming future. We're currently facing a huge scarcity in HRwhich doesn't allow PPI Spain to contribute as much as other PPI's, but ironically we're financially independent without the help of any external sponsors & without any membership fee.
